TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

Subchapter B—The Foreign Service

[Foreign Service Reg. S-17]

PART 112—INTERCOURSE WITH FOREIGN GOVERNMENTS

Pursuant to the authority vested in me by R. S. 161 (5 U.S.C. 22); by Executive Order 9452 of June 26, 1944 (3 CFR, 1944 Supp., 66), as amended by Executive Order 9514 of January 18, 1945 (10 F.R. 771); and by Executive Order 9521 of February 13, 1945 (10 F.R. 1991), §§ 112.3

to 112.6, inclusive (10 F.R. 3358), are amended, and § 112.7 is added, as follows:

§ 112.3 Protection of foreign interests; general nature of function. The protection of foreign interests involves essentially the extension of friendly services on the part of one power (generally known as the "protecting power") in behalf of nationals or other interests of a second power (generally known as the "protected power") within territory subject to the sovereignty or control of a third power (which for convenience is referred to in these Regulations as the "local power"). In the application of the practice of the protection of foreign interests distinction is frequently made between the exercise of informal good offices and the assumption of a more formal representation of interests. The protection of foreign interests assumes particular importance in time of war, when a neutral power undertakes in behalf of a belligerent power the care and protection of its interests within the territory of an opposing belligerent power. The protection of the interests of a foreign power at war with the country to which an officer of the Foreign Service is accredited or assigned calls for the exercise of special care in order to maintain his position as an officer of a neutral power whose interests it is his primary duty to conserve. The protection of foreign interests is not necessarily associated with a state of war, however, and may occur as a result of a severance of diplomatic relations or merely because the protected power chooses to withdraw, partially or fully, or not to establish, its own diplomatic or consular representation within the area where the protection of its interests is undertaken by a protecting power.

§ 112.4 Assumption of protection of foreign interests. American diplomatic and consular officers may, upon request, assume temporarily the protection of foreign interests, but, except in extreme emergencies, may do so only with the specific authorization of the Department of State. A power seeking protection of its interests in a specified area by the United States generally addresses to the United States Government through the customary diplomatic channel a formal request to that effect. If the United States Government accedes to the request, the Department of State issues appropriate instructions to the American diplomatic and consular officers concerned. If requested by a diplomatic or consular officer of another power to undertake the protection of its interests within the country to which he is assigned, an American diplomatic or consular officer should suggest in reply that his colleague's government address the request to the United States Government through the customary diplomatic channel. He shall at the same time report the matter fully to the Department of State, which if convinced of its urgency will usually authorize the provisional exercise of such protection pending the receipt of a formal request. The report to the Department shall include information with respect to the following points:

- (a) The form of protection requested; i. e. good offices or formal representation;
- (b) The specific area in which and the extent to which protection would be exercised; and

(c) The origin of the request (whether made at the direction of the power that would be protected, or upon the initiative of its diplomatic or consular officer making the request). Diplomatic officers of the protecting power are not accredited to the local power in the capacity of diplomatic officers of the protected power, and consular officers of the protecting power do not receive from the local power equivalents as consular officers of the protected power. American diplomatic and consular officers are expressly prohibited from performing any duty for a foreign government that involves the acceptance of an office. § 112.6 Performance of services. The United States Government does not authorize its officers engaged in the protection of foreign governments to perform services requiring the application or interpretation on their part of laws and regulations of the protected countries. Such functions shall be performed only upon the basis of information obtained from the protected power indicating the application of laws and regulations appertaining to each individual case or upon the basis of a general statement from the same source of principles applicable alike to all cases.

§ 112.7 Termination of protection of foreign interests. Protection of foreign interests will usually be terminated upon the request of the protected government and upon authorization from the Department of State but may occur at the request of the local power.

1. Section 1358.102 (c) (3) is amended to read as follows:

(3) *Adjustments of average retail price ceilings.* A manufacturer who is unable to maintain his average retail price ceiling determined under subparagraph (2) above or subparagraph (5) below or established for him under this subparagraph or under paragraph (d) below and earn a net operating profit (before taxes on income) of 4.5 percent of his dollar net sales (dollar net sales, for the purposes of this section must be interpreted as meaning sales of all cigars sold during the period at manufacturers' list price, less discounts allowed and returns and allowances. CIVILIAN PRODUCTION ADMINISTRATION.

[C-427]

SMART SET FROCKS

CONSENT ORDER

Smart Set Frocks, a partnership consisting of Henry Silverman, Mike Ackerman and Abe Giddins, is engaged in the manufacture of women's house dresses, at 1370 Broadway, New York, New York. On February 12, 1946, a temporary suspension order was issued against the partners directing them to immediately cancel outstanding CC rated textile orders for fabrics in excess of the amount authorized, and to place no CC rated orders for any textile fabrics during the first quarter of 1946. The partners are charged by the Civilian Production Administration with having, during the fourth quarter of 1946, placed orders bearing CC ratings for 168,100 yards of cotton fabrics, although they were authorized to place orders carrying these ratings for only 23,682 yards of such cotton fabrics in violation of Priorities Regulation No. 3. The partners received delivery of 139,043 yards of cotton fabrics, being 115,361 yards in excess of their authorization. The partners admit the violation as charged, do not desire to contest the charge, and have consented to the issuance of this order.

Wherefore, upon the agreement and consent of Henry Silverman and Abe Giddins for Smart Set Frocks, the Director of the Compliance Division, and the Assistant General Counsel for the Civilian Production Administration, and upon the approval of the Chief Compliance Commissioner; *It is hereby ordered*, That:

(a) The temporary suspension order issued against Smart Set Frocks, dated February 12, 1946, is hereby revoked.

(b) Henry Silverman, Mike Ackerman and Abe Giddins, partners doing business as Smart Set Frocks, shall reduce the amount of cotton fabrics for which they may be authorized to extend ratings during the first quarter of 1946 under Order M-328-B by the amount of 81,525 yards.

(c) Henry Silverman, Mike Ackerman and Abe Giddins, partners, doing business as Smart Set Frocks, shall reduce the amount of cotton fabrics for which they may be authorized to extend ratings during the second quarter of 1946 under Order M-328-B by 125,000 yards, and shall reduce the amount of rayon fabrics for which they may be authorized to extend ratings during the second quarter of 1946 by the amount of 43,475 yards.

(d) Nothing contained in this order shall be deemed to relieve Henry Silverman, Mike Ackerman and Abe Giddins, partners, d/b/a Smart Set Frocks, from any restriction, provision or prohibition contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(e) The restrictions and provisions contained herein shall apply to Henry Silverman, Mike Ackerman and Abe Giddins, partners, d/b/a Smart Set Frocks, their successors and assigns, or persons acting in their behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

GAS APPLIANCE VALVES

MODIFICATION OF MAXIMUM PRICES

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order 1 under section 22 of Maximum Price Regulation No. 591 is amended in the following respects:

Section 5.4 is amended to read as follows:

SEC. 5.4 Modification of maximum prices of gas appliance valves—(a) Scope of this amendment. This section modifies maximum prices for sales by manufacturers of gas appliance valves.

"Gas appliance valve" means any manually-operated valve or device specially designed to control the flow of natural or manufactured gas, oil, or kerosene, or any derivative of the foregoing fuels, at any rate from none to full, attached to an appliance designed for heating or cooking purposes either at the point where such fuel is to be used or inserted in the fuel supply line of such an appliance.

The term "gas appliance valve" does not include the regular type of angle, gate, globe, or check valve, or any variation of these basic types, nor does it include devices commonly known as corporation cocks or service cocks.

(b) Maximum prices for manufacturers. The maximum prices for sales by a manufacturer of gas appliance valves shall be the total of the following factors:

(1) The unit cost as of January 13, 1944 of direct materials used in the manufacture of the gas appliance valve at net invoice prices (all discounts deducted) laid down on the manufacturer's receiving floor or at any other comparable point, but in no event at prices exceeding the maximum prices permitted under any applicable maximum price regulation, schedule, or order issued by the Office of Price Administration.

(2) The unit direct labor cost of producing a valve based upon labor rates in effect on January 13, 1944, but in no event exceeding legally permissible rates. The unit direct labor cost shall be determined as follows:

(i) Multiply the labor rate for each operation by the actual time expended on each operation; and

(ii) Divide the sum of the totals for all operations performed on each valve as computed in (i) by the total number of units produced.

(3) The dollar-and-cents gross markup. The dollar-and-cents gross markup shall be determined as follows:

(i) Subtract from the gross sales of gas appliance valves for the calendar year 1941, the direct actual material and labor cost expended in the production of gas appliance valves during such calendar year:

(ii) Divide the resulting difference by the direct actual material and labor costs expended in the production of gas appliance valves during the calendar year of 1941; and

(ii) Multiply the sum of the costs determined under (1) and (2) by the percentage thus obtained.

(c) *Maximum prices for resellers.* Every person except a manufacturer of gas appliances purchasing gas appliance valves covered by this section for resale may increase his maximum price to each class of purchaser as established under the General Maximum Price Regulation by an amount not in excess of his dollar-and-cents increase in cost resulting from the increase permitted the manufacturer under paragraph (b) of this section.

(d) *Cash discounts, allowances and services.* The maximum prices established by this section shall be subject to cash discounts and allowances and to the rendition of services at least as favorable as those which the manufacturer extended or rendered or would have extended or rendered to purchasers of the same class on similar sales during the period October 1-15, 1941.

(e) *Records.* Every manufacturer selling gas appliance valves subject to this section shall have available for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, a record of each sale made under this section showing the date of the sale, the name and address of the purchaser, the plate number, the material and labor costs, the amount of gross mark-up, the maximum price permitted under this section, the transaction price or the discount allowed from the maximum price, and the point of delivery of the shipment.

(f) *Reports.* The following manufacturers, namely, W. J. Schoenberger Co., Cleveland, Ohio; Roberts Brass Mfg. Co., Detroit, Michigan; Detroit Brass and Malleable Works, Detroit, Michigan; Harper-Wyman Mfg., Chicago, Illinois; Lincoln Brass Works, Inc., Detroit, Michigan; selling gas appliance valves subject to this section shall file with the Regional Office of the Office of Price Administration, Cleveland, Ohio within 30 days after first offering for sale a gas appliance valve priced under this section the following data:

(1) Profit and Loss Statement reflecting entire company operations for the year ended December 31, 1941.

(2) Balance Sheet with an analysis of surplus as of December 31, 1941.

(3) Profit and Loss Statement covering Gas Appliance Valve operations only, for the year ended December 31, 1941. This statement must include a breakdown of cost of goods manufactured and sold, segregated as to materials consumed, direct labor and manufacturing overhead, together with pertinent inventory adjustments, and of Selling, General and Administrative expenses applicable to this phase of operations.

(g) *Notification of purchasers.* Every manufacturer selling gas appliance valves subject to this section shall send a notice to every purchaser of gas appliance valves covered by this section at the time of the first invoice stating substantially as follows:

The maximum price of this gas appliance valve has been established in accordance with section 5.4 of Order 1 under section 22 of

Maximum Price Regulation No. 591. Resellers, except manufacturers, may increase their maximum price to each class of purchaser as established by the General Maximum Price Regulation by an amount not in excess of the dollar-and-cents increase in their cost due to the increase permitted the manufacturer under section 5.4 of Order 1.

This amendment shall become effective March 20, 1946.

Issued this 15th day of March 1946.

SOLIDS FUELS IN SIOUX CITY, IOWA, AREA

An opinion accompanying this amendment has been issued simultaneously herewith. Order No. G-16 under Revised Maximum Price Regulation No. 122 is amended in the following respects:

1. In Appendix No. 2, which covers the Sioux City, Iowa area, paragraph (b), *Price schedule*, is amended to read as follows:

(b) Immediately below and as a part of this paragraph (b) is a price schedule which sets forth maximum prices for domestic delivered sales of specified sizes, kinds, and quantities of solid fuels in lots of ½ ton and 1 ton or more. Sales in lots of fractions of a ton or tons shall be governed by the price schedule as follows:

(i) On delivered sale of less than 1 ton, the price shall be proportional to the price per ton plus an additional charge of 50¢, but in no event shall the total price be in excess of that for a sale of 1 ton; for example, if the price of 1 ton is \$13.45, the price of ½ ton would be \$6.70 plus 50¢ or a total of \$7.20; the price of ¾ ton would be \$10.05 plus 50¢ or a total of \$10.55. If the price of 1 ton is \$13.45, the price of ½ ton would be \$6.73 plus 50¢ or a total of \$7.23.

(ii) On delivered sales of more than 1 ton, for each fraction of a ton sold the price shall be proportional to the price per ton; for example, if the price of 1 ton is \$13.40, the price of 1 ½ tons would be \$20.10; the price of 1 ¼ tons would be \$23.45. If the price of 1 ton is \$13.45, the price of 1 ½ tons would be \$20.18.

2. The price schedule lists maximum prices for the sale of coal on the basis of the type of mine operation by means of which it is produced. On coal produced in District No. 10, the prices apply to coal produced in Deep Machine Mines only. On coal produced in District No. 12, the prices apply as specified to both Strip mines and Deep mines. Prices of coal produced in District No. 14 apply as specified to coal produced in Strip Mines, Underground Mines, Solid Shot and Underground Mines Machine Cut. On coal in District No. 15, as described in paragraphs IV, A and B, prices apply to coal produced in Strip Mines only and, as described in paragraph IV, C, prices apply to coal produced in Deep Shaft Mines only. The prices of coal produced

in District No. 19 are similar for the same kind and size of fuel regardless of the type of mine operation. The prices of Briquettes are unaffected by the type of mine operation.

SOLID FUELS IN SUPERIOR, WIS., AREA

An opinion accompanying this amendment has been issued simultaneously herewith. Order No. G-16 under Revised Maximum Price Regulation No. 122, as amended, is amended in the following respects: In Appendix No. 8, which covers the Superior, Wisconsin, Area, paragraph (b), Price schedule, is amended to read as follows:

(b) Price schedule. Immediately below and as a part of this section (b) is a price schedule that sets maximum prices for domestic and commercial "delivered," domestic and commercial "at yard," and domestic and commercial "dealer at yard" sales by dealers of specified kinds and sizes of solid fuels in lots of 1 ton or more. Service charges are set forth in section (c). Discounts are set forth in section (d). The provision with reference to the 4 cents transportation tax is set forth in section (e). Definitions are set forth in section (f). Sales in lots of fractions of a ton or tons shall be governed by the price schedule as follows:

(i) On delivered sales of less than 1 ton, the price shall be proportional to the price per ton plus an additional charge of 50 cents, but in no event shall the total price be in excess of that for a sale of 1 ton; for example, if the price of 1 ton is \$10.45, the price of $\frac{1}{2}$ ton would be \$5.23 plus 50 cents or a total of \$5.73; the price of $\frac{3}{4}$ ton would be \$7.84 plus 50 cents or a total of \$8.34.

(ii) On delivered sales of more than 1 ton, for each fraction of a ton sold, the price shall be proportional to the price per ton; for example, if the price of 1 ton is \$12.85, the price of $1\frac{1}{2}$ tons would be \$19.28.

(iii) On yard sales of any fraction of a ton, whether more or less than 1 ton, the price shall be proportional to the price per ton; for example, if the price of 1 ton at the yard is \$12.10, the price of $\frac{1}{2}$ ton would be \$6.05; of $1\frac{1}{2}$ tons—\$18.15.

The prices established by this amended schedule supersede those established by the adjustment permitted by Regional Order Nos. G-24, G-27, and G-29, under Revised Maximum Price Regulation No. 122, as to dealers covered by Appendix No. 8 to Order No. G-16.

[Des Moines Order G-15 Under Gen. Order 68]
BUILDING AND CONSTRUCTION MATERIALS
IN BURLINGTON, IOWA, AREA

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, it is ordered:

SECTION 1. What this order covers. This order covers all retail sales made by any seller of commodities specified in Appendix A below, delivered to the purchaser in the Burlington, Iowa, Area, both on a yard sales and a delivered sales basis. The Burlington, Iowa, Area for the purposes of this order consists of that area within the State of Iowa included within the corporate city limits of the City of Burlington, Iowa, and the area within twelve (12) miles from the corporate city limits of the City of Burlington, Iowa, including, but not limited to the towns of West Burlington, Middletown, Danville, Augusta, and Wever, Iowa.

SEC. 2. Definitions. For the purposes of this order, a retail sale means a sale to an ultimate user, or to any contractor: *Provided*, That for the purposes of this order, a "retail sale" shall not include any sale to the United States Government or any of its political subdivisions. Any person who sells material or equipment, and in connection therewith, assumes responsibility for its incorporation into a building, structure, or construction proj-

ect at a fixed site, by charging a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered a contractor. Purchases by applicators, as herein defined, of asphalt and tarred roofing products and insulation are excluded from the coverage of this order. Applicators are herein defined as contractors engaged exclusively in the business of applying roofing and/or siding and/or insulation to buildings.

The word "seller" refers to each separate seller covered by this order. If a seller makes sales at retail through more than one selling unit or establishment, each selling unit or establishment is considered to be a separate seller, subject to all the provisions of this order.

SEC. 3. Relation to other regulations. The maximum prices fixed by this order supersede any maximum prices determined under or pricing methods provided by any maximum price regulation or order which would otherwise be applicable to the sale of the commodities specified in Appendix A. Any other provision of this order which is inconsistent with any maximum price regulation or order which would otherwise be applicable, supersedes such provision of the maximum price regulation or order. All provisions of maximum price regulations or orders which are applicable to the sale of commodities specified in Appendix A, not inconsistent with provisions of this order, shall continue to apply to sales made subject to this order.

SEC. 4. Discounts, allowance and delivery practice. The maximum prices established by this order are maximum prices for cash sales. Where, during March 1942, the seller established a differential between cash sales and sales on credit, such differential or credit charge may be added to the maximum price established by this order. In no event may

the credit charge, if any, exceed the highest charge made to the same class of purchaser for the same sale during March 1942. No additional charge may be made for deliveries by the seller to any point located within the Burlington, Iowa, Area. All customary discounts, allowances or differentials established by any maximum price regulation or order applicable to the sale of the commodities specified in Appendix A, shall be maintained.

SEC. 5. Posting of maximum prices. Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. Two copies of the list of maximum prices are attached to this order, one of which may be removed and posted as required herein. Every seller making sales covered by this order shall retain a copy of the order in each of his places of business in the area covered by this order and shall, if requested by the purchaser, make the same available for inspection by him.

SEC. 6. Sales slips and records. Every seller covered by this order shall give to the purchaser a sales slip, receipt, or other evidence of purchase which shall show the date, name and address of the seller, the description, quantity, and the price of each item sold, said description to be in detail sufficient to determine whether the price charged has been properly computed under this order; provided that for sales of less than a total of \$7.50 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare such sales slips, receipts, or other evidence of purchase in duplicate and he must keep for at least 6 months after delivery such duplicate copy delivered pursuant to this section. For any sale of \$50.00 or more

FEDERAL REGISTER, Saturday, March 16, 1946

each seller, regardless of previous custom, must keep records showing at least the following:

- (1) Name and address of buyer.
- (2) Date of transaction.
- (3) Place of delivery.
- (4) Complete description of each item sold and price charged.

SEC. 7. On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No person subject to this order may evade any of the provisions of the order by any

stratagem, scheme or device. No person subject to this order may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. Petitions for amendment. Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

SEC. 9. Appendix. The list of maximum prices fixed by this order is entitled "Appendix A", attached hereto and hereby made a part of this order.

SEC. 10. This order may be modified, amended, or revoked at any time.

This order shall become effective March 4, 1946.

Issued this 25th day of February 1946.
